

Before Your Visit

When you come to Natividad, you are in the hands of dedicated professionals. We are ready to welcome you into our care, and we want to make your visit as simple as possible. Whether you are coming to Natividad for an inpatient stay or have a quick appointment, we know you might have questions. Here is some information about preparing for your visit.

If you will be staying overnight at the hospital, it's because the admitting physician feels it is important for you to stay either for observation or as an inpatient. If you will not be staying overnight and are only coming for an appointment or other services, you have an outpatient visit. If you are having surgery, please see For Surgery Patients below.
